Coastal Concerts Announces 2021-2022 Music Scholarship Program

Coastal Concerts (CoCo) will begin accepting applications for its 21/22 Music Scholarship Program on November 26 2021. These scholarships are available to young musicians from middle school age through high school who reside on the Delmarva Peninsula. At least one scholarship per year is made available to a Sussex County student. CoCo encourages musically talented students – vocalists, guitarists, percussionists, brass, woodwind or string players – to apply for one of its scholarships. Amounts range from up to \$1,500 each to High School students, and up to \$1,000 each to Middle School students. Since the introduction of the scholarship program in 2002, 48 students have received awards totaling over \$47,700.

Students will compete only against others in their age group. Awards will be based on both written essay and music performance and can be used for music camps, university courses, instrument purchase or repair, or for music lessons.

The application period runs from November 26, 2021 through February 15, 2022 and will be evaluated in early to mid-March. Awards will be announced shortly thereafter.

Complete guidelines and application forms are available on www.coastalconcerts.org.
